UHERO-APEC Project

About APEC Project

The leaders of 21 Asia Pacific Economic Cooperation (APEC) economies will be meeting in Hawai‘i during November 6-13, 2011. Thousands of international government officials, corporate executives, and media will visit Honolulu for the weeklong APEC meetings. This provides a unique and unprecedented opportunity to showcase Hawaii’s rich cultural heritage, hospitality, and international excellence.

As the meetings approach, UHERO will provide relevant data and analysis for stakeholders and the local community. Briefing reports featured on the UHERO website include reports on APEC member economies, APEC 2011 themes, and interviews of local and international APEC experts.
